Your Coil and Wire Binding Specialist

## The PWB580 Inline Ring Wire Punch and Bind Machine

The CE approved PWB580 is a true option for large format calendar production as well as larger diameter note books. With diameter sizing from 1/4" through to 3/4" this machine will do it all. The PBW520 has an all steel welded frame built of sturdy construction. This machine comes with optional cover feed and calendar hanger to again increase production. More over there is a second station where pre-punched thick board covers can be inserted. A truly versatile inline system. One final advantage bt eliminating the turnover drum the possibility of page shuffling in non-existent.
